Re: Administrative Order
Docket No. CERCLA-VI-05-88

Dear Mr. Morse:

The Environmental Protection Agency, following its review of your request for mixed funding at the AID Warehouse site, has decided to deny the request.

The October 20, 1987, memorandum from J. Winston Porter regarding mixed funding settlements that you quote in your request also states:

"For agreements involving activities such as an RI/FS or a removal, preauthorization in general will not be warranted, because the process of preauthorization will usually prove too burdensome for the small amounts or short timeframes often encountered in these cases."

EPA feels that, because of the small amounts involved at this site, mixed funding is not a viable option to pursue.

The workplan submitted by International Distributor Corporation (IDC) on July 11, 1988, does not comply with the Administrative Order. The procedure for the removal of the drums is acceptable, however, EPA feels that the work should be performed within a maximum of 90 days from the original due date of the workplan (July 11, 1988). If the workplan is modified within seven days of receipt of this letter in order to reflect this timeframe, then it will be acceptable.

If you have any questions regarding the mixed funding determination, please contact John Meyer at (214) 655-6730. For questions regarding the workplan, please contact David Dodgen at (214) 655-2270.

Sincerely yours,

Jack L. Davis
